

EXPLORE THE BUSINESS CASE FOR RESPONSIBLE INNOVATION

Joint Action starting in Sept. 2019

Team up with us and co-create the future of innovation

Responsible innovation pays off. But context matters and payback mechanisms may be different for each company. This Joint Action brings together scientific evidence and practical experience on the business case for responsible innovation and provides a vibrant forum for exchange.

- **Purpose:** Collecting credible and evidence based knowledge and when and how Responsible Innovation pays off.
- **Starting point:** Research papers and case studies.
- **Target groups:** Researchers and practitioners interested in responsible innovation.
- **Outcomes:** Sound and convincing narratives addressing top managers and decision makers.
- **Impacts:** Understanding and greater awareness of Responsible Innovation as business opportunity.
